

Thank you for your interest in our energy saving rebate programs in Rhode Island.

nationalgrid

Follow these steps to receive a rebate for the equipment listed below:

- 1) Consult a licensed contractor to determine what equipment will be installed and that the new equipment will qualify for the listed rebates.
- 2) National Grid requires rebate funding be reserved prior to equipment installation. To confirm funds are available and to make your reservation, please visit www.smartenergy-zone.com/nationalgrid. Rebate funding is reserved for 60 days from the date of the reservation.
- 3) Receive confirmation on your reservation via a web submission ID.
- 4) Once your new high-efficiency equipment is installed, review, complete and return this rebate application within 60 days of rebate reservation with a dated contractor invoice.

Please make sure your invoice includes:

- a) The type of equipment installed with the complete equipment manufacturer and model number(s)
- b) AFUE for heating equipment, Energy Factor or Thermal Efficiency for water heating equipment
- c) Contractor's name and address
- d) Contractor's license number

If you opt to self-install a thermostat, please include your store receipt and the original UPC code from the product package.

Mail application and documentation to:

National Grid High-Efficiency Residential Equipment Rebate (RI) • Offer # H243804 • PO Box 130013 • El Paso, TX 88513-0013

Please call **1-800-292-2032**, e-mail ngridinfo@smartenergy-zone.com or visit www1.nationalgridus.com/EnergyEfficiencyPrograms if you have any questions.

You may track the status of your rebate by visiting www.smartenergy-zone.com/nationalgrid.
